TEK306- Week 37 quiz

Main Objectives

The main objective of this exercise is to be able to describe mobile security countermeasures, technical controls, and security principles.

Description of the Assignment

Attempt each of the below questions as they appear and complete them, preferably as classwork (if you get the time) or later as homework 😊

(1) What is cryptography?
(2) Compare symmetric vs asymmetric encryption.
(3) What is a hash function?
(4) Explain digital signature.
(5) What is cipher-text?
(6) Explain secret key?
(7) What is plain text?
(8) Mention the three types of cryptographic techniques in use.
(9) What is the name given to conventional cryptography?
(10) What is cryptoanalysis?
(11) Describe the concepts of encryption and decryption.
(12) Mention the two categories of mobile security principles.
